Slow & Advanced Learner & Bridge Course

A) Concept

❖ Advanced learners

Advanced learners are fast learners. It means students whose intellectual level and learning ability are of high and fast quality. Similarly, they have higher capacity for perception, comprehension, memory, critical thinking and creativity. Also they have the ability to get high quality education. Innovative activities are implemented by the Department of History to develop more potential in such students

❖ Slow learners

Slow Learner are always low achievers and lag behind other students in the learning process. Due to their low intellectual level, they cannot cope with the teaching and learning process at a fast pace. They are weak in perception, comprehension, memory, critical thinking and creativity. As a result, they cannot focus on education due to lack of confidence and fear of failure. They need external motivation for their education.

❖ Bridge course

Bridge course will be very important from the point of view to revise and reinforce the learning of the students from the previous class and pave the way to make their learning happen in the next class.

A bridge course is a type of educational program that helps students move from one academic level to another. For example, if a student with science, commerce stream is taking admission in arts stream for higher education or if history is not a subject while studying in class 12th arts stream, then bridge course is useful for such students. Also it can help the student to change from junior college to senior college.

❖ Methods of Assessment

Students can be assessed to identify their academic level. One of them is that the quality obtained by them in the qualifying examinations can be taken as an indicator of their achievement.

To identify the advanced and slow learners, the marks of those students in Class 12th History subject as well as the marks obtained in the Slow Learner and Advance

Learner test conducted by the History Department are taken into consideration and on that basis they are classified as Slow & Advance learner.

Accordingly, the students who scored 100 marks in class 12 History subject, 50 marks in examination, 75 marks out of total 150 marks were recognized as advanced students. Whereas students scoring less than 55 were considered slow learners.

❖ Policy Guidelines

➤ For slow learners:

1. Slow learners are motivated and made aware of their learning abilities and weak areas.
2. They are guided on how to overcome their shortcomings.
3. Department and individual teachers help them by giving them proper guidance.
4. Special attention is given to these students in class. Also advanced learners are made available as their supporters.

➤ For Advanced Learner :

1. Advanced learners are motivated to strive for higher goals. They are provided with library support and easy access to visit the library.
2. They are allowed to meet their teachers anytime. Also they are given extra training to enhance their excellence.
3. They are always motivated for their brilliant performance. Individual attention is given to their academic progress.

➤ For Bridge course

1. Such students are motivated to strive for higher goals and are made aware of their learning potential and weak areas.
2. Department and individual teachers help them to guide them properly on how to overcome their shortcomings.

In order to make the teaching-learning process beneficial, interesting and fruitful for the students, it is necessary to divide the advanced and slow learners. Apart from this, special coaching for advanced students and extra classes for slow learners are organized to help the students achieve better in their academic field.

English Department

Slow & Advanced Learners & Bridge Course

A) Concept

❖ **Advanced Learners**

Advanced learners are fast learners. It means students whose intellectual level and learning ability are of high and fast quality. Similarly, they have higher capacity for perception, comprehension, memory, critical thinking and creativity. Also they have the ability to get high quality education. Innovative activities are implemented by the Department of English to develop more potential in such students

❖ **Slow Learners**

Slow Learners are always low achievers and lag behind other students in the learning process. Due to their low intellectual level, they cannot cope with the teaching and learning process at a fast pace. They are weak in perception, comprehension, memory, critical thinking and creativity. As a result, they cannot focus on education due to lack of confidence and fear of failure. They need external motivation for their education.

❖ **Bridge Course**

Bridge course will be very important from the point of view to revise and reinforce the learning of the students from the previous class and pave the way to make their learning happen in the next class.

A bridge course is a type of educational program that helps students move from one academic level to another. For example, if a student with science, commerce stream is taking admission in arts stream for higher education or if English Literature is not a subject while studying in class 12th arts stream then bridge course is useful for such students. Also it can help the student to change from junior college to senior college.

❖ **Methods of Assessment**

Students can be assessed to identify their academic level. One of them is that the quality obtained by them in the qualifying examinations can be taken as an indicator of their achievement.

To identify the advanced and slow learners, the marks of those students in Class 12th History subject as well as the marks obtained in the Slow Learner and Advance
