Feedback Mechanism

Feedback is important part of teaching and learning process. The institute aims to offer the best possible environment and learning experience to encourage student perform to their full potential for academic achievements. Students, teachers, Alumni play an important role in the evaluation, development, and enhancement of the quality of this learning experience. Feedback from Students teachers, Alumni and employers help the college to evaluate how it serve policies and the changes as per stakeholder requirements. The feedback process has put an emphasis on the need for involvement of students in the quality of assurance of higher education. With this aim the college has developed following feedback mechanism.

The institute offers all round facilities to the student to explore their full potential for academic and extra mural achievements. College has a special mechanism for collection, statistics analysis and corrective measures to be taken on the feedback. Stakeholder can give their feedback through printed form and online form provided by the college. Feedback from students, teachers, parents and Alumni helps the institute to evaluate its service policies and make changes for achieving the excellence. The feedback process has emphasized the need for environment of stakeholders for the student centric development of institute. Thus the student should act as a Collaborate rather being a merely passive receive in teaching learning process.

The feedbacks are collected from all stakeholders by receiver through the feedback committee and analysed. After analysis of feedback the analysis report is communicated to the IQAC. Feedback of stakeholders is valuable for us, as it's provides the role in improvement of curriculum facilities, entrepreneurship and employability of our students. Opinion and suggestions obtained from the stakeholders are evaluated on the background of vision and mission of the institute and considered by the IQAC for their execution. The IQAC prepares Action Taken Report of it. Thus the feedback mechanism assists in curriculum delivery.
