participate in the event. The objective of the Workshop is to equip researchers with R and to provide hands-on training to researchers who use mathematical/statistical tools in their routine research.

In the last three decades statistical computing has become an integral part of statistics and obviously it is a rapidly growing field now-a-days. R is a statistical computing environment derived from the S language. It is not only free software under the GNU general public license but also contains more than five thousand packages developed by researchers from all over the world. This is perhaps the reason that R is famous among researchers of statistics and other applied sciences for data analysis as well as statistical computing. It gives the flexibility to write own programmes and also to use inbuilt functions for various statistical computations. For further details, contact the following

Online Workshop on Statistical Computing Using R

A six-day Online Workshop on 'Statistical Computing Using R' is being organised by Banaras Hindu University, Varanasi during October 25-30, 2021. The Ph.D. students and young faculty members who use statistical analysis in their routine research may

participate in the event. The objective of this Workshop is to equip researchers with R and to provide hands-on training to researchers who use mathematical/statistical tools in their routine research.

In the last three decades statistical computing has become an integral part of statistics and obviously it is a rapidly growing field nowadays. R is a statistical computing environment derived from the S language. It is not only free software under the GNU general public license but also contains more than five thousand packages developed by researchers from all over the world. This is perhaps the reason that it is famous among researchers of statistics and other applied sciences for data analysis as well as statistical computing. It gives the flexibility to write own programmes and also to use inbuilt functions for various statistical computations. For further details, contact the following

- Dr. Rakesh Ranjan, DST-Center for Interdisciplinary Mathematical Sciences, Institute of Science, Banaras Hindu University, Varanasi-221005, Uttar Pradesh. Mobile No: 0945322776.
