Dr. S. A. Thakur. Department of IQAC arranged special lecture on importance of infrastructural facilities to NAAC Assessment. by Dr. S. A. Thakur.

Chief Guest Dr. Shivram Thakur said that every college in India needs to acquire NAAC Grade from Bangalore.

Colleges are evaluated through NAAC. Now a days Assessment is given to the colleges by online and offline 70% & 30%. according to various criteria. Today many colleges provides basic facilities and services to the students and staff. Infrastructure in rural areas are more or less, the same as in cities. Institutions in rural areas have ample space available. Care should be taken to maximize the use of all types of materials available to students for study.

Every college needs tables, computers, Library, projector etc. all the basic components. Also various services like water filter, xerox machine canteen, parking, internet, Wi-fi available in the college campus. Regularly uses this facilities. There are many large mango trees in college campus. Foundation are built to sit around the trees. This is one of the ideal teaching methods available for you. At last prof. V.V. All Teaching and non teaching members were present for the programme. Dr. S. R. Raibole welcomed to guest with Bulce. IQAC Department arranged Lecture on Save Electricity for the National development by Shri Nitin Kamble.

While making introductory remarks Dr. R. B. Patil informed about the importance of Electricity and distribution of electricity in India. Power is lifeblood of every industry. Therefore he emphasized the importance of no industry without electricity.

Resource person Shri. Nitin Kamble said that Electricity is an important resource of a Nation. It is converted from one place to another. This is one of the chain. Saving electricity is in your hands. If you save electricity, you can stop deforestation. Stopping deforestation will increase rainfall. This will provide ample water for agriculture and industry. In addition water will also be supplied through rainwater to generate hydropower. Saving electricity is in our hands. But the cheapest and most easily generated electricity is hydropower. Consumption of electricity has increased due to the growing population, and cannot meet the growing demand for electricity. So saving electricity is the most important and best option.

Chairperson Dr. S. R. Paibole said that electricity is very important in the development of the country. Power is such an important part of life. Therefore everyone should give importance to victory in the development of the country. Electricity is very big subject. At last Prof. Vinodsinh Patil thanked everyone, and with the permission of Chairperson lecture workshop is over.

Principal Dr. Subhas Sawant (Dodamang College) welcomed all the Teaching and non teaching staff of Phondaghat College. The Theme of the workshop was 'Peer Team Visit: Exchange of Experience'. Principal Dr. Subhas Sawant explained his experience about NAAC Peer Team Visit. He has explained in detail about how to prepare all documents & campus, eco-friendly environment of the college, how to display all departments including information or activities, how to present each departmental PPT, how to communicate with peer team, how to display library documents etc.

IAAC coordinator Dr. Sopan Tadhar explained criteria-wise information. He explained meta-criteria-wise documentation of seven criteria. How to collect data of the programmes and how to submit documents to the NAAC. We can show the society-oriented programme through extension activities. Apart from teaching, extension activities are very important because these activities play a major role in society. Students involvement and such extension activities support to personal development of them. Role of Alumni and parents are also major roles in the development of the college. Donation in the form of cash or materials is essential to develop college activities. The institution provides all kinds of infrastructure facilities to the students then ultimately we can achieve various awards to the college.

Teacher can do research along with students, it is benefited to them in future. Students can get various ideas apart from theoretical part. Teacher should support to student for innovative practice or work for his growth. You can summarise your best activity for Best Practice purpose. Best practice is the role model of your college is key to society.

Opportunity is not a obstacal in life. If everyone attitude is positive then all things will be successful. Role of everyone is major in NAAC proce. We should impart knowledge to the students for the development of their personality. College is the center of development of society. Social, cultur and political leaders are created through college. Innovative practices carried through students are essential for the college. Students can do campus work with eco-friendly.

Students can make survey of society which is essential to them. College helps the society through various mode. NSS, NCC plays vital role in the society. Awareness programmes are very important to students and society. All types of NSS activities and various days are society orientanted. Society can do some public work through college activities, ant-drug, yoga, health check up, blood donation, street plays, one act play & AIDS awareness etc. are the major activities of the college.

Student can learn many things from extension activities and develop themselves. Healthy environment is essential and basic components of college development. At last IIC principal prof Dr. S. N. Kamat thanked the chief guest Dr. Hemant Pednekar and other participants.
